

I am writing in hopes that the FCC will not implement any proposal that would make Indiana's Telephone Privacy law have less protection. Our family used to receive no less than 3-4 phone calls each evening (about 15 a week) from a credit card co., telephone co., etc. We now only receive 1 or 2 calls a week at the most. It is more enjoyable to be able to relax in your own Home with no interruptions. Please do not implement a less strict law!

Thank you

Lori M. Miller
